

Mechanisation & Automation in Construction

**Equipment & Solution for Infrastructure fraternity.
Residential, Commercial Complex,
Power, Steel, Cement & Special Structures**

**Proud to Make in India
&
Export them as Made in India**

ConMechAuto Consultants India Pvt. Ltd.,

CMAC:

Established by qualified and experienced professionals from infrastructure industry, we are providing wide range of material handling equipment with quality engineering for infrastructure fraternity.

We have strength of understanding customer needs depending on their projects, through consultancy, engineering studies and services with 12 plus years of manufacturing experience. CMAC offers total solution for material handling as per the project requirements. We provide manufacturing services for industrial steel structures.

VISION:

We aim to establish a reputation in the global market on the same lines as in India, by promoting mechanization in execution of projects with continual up gradation of technology. We help the client achieve their project targets in a safe and cost effective manner.

MISSION:

To achieve 4S-Strength, Saving, Safety and Speed for our client's projects through Value Engineering, Mechanization and Automation of the projects.

VALUES: We operate with these four values :

Timely commitment, Relationship, Respect and Team work.

QUALITY OBJECTIVES:

To ensure quality products, we involve ourself right from design, manufacturing process, conducts PDI and third party audit for all the products delivered from our own manufacturing facilities.

TRAINING:

We have a training division, which takes care of training the technicians and the equipment operators. This ensures optimum productivity for customer project's progress.

SERVICE EXCELLENCE:

CMAC has a team of Engineers (Customer Relationship Manager- CRM) at the 5 major regions of India. Each CRM is equipped with electrical & mechanical teams to ensure smooth operations of equipment. We implement periodical training and up-gradation of our service teams. Our centralised help desk for various products, helps resolving minor problems online, thus contributing for maximum output of equipment.

SPARE PARTS:

We have deployed a 3000 sqft. of dedicated warehouse at Hyderabad. 150 sqft. space at all the regional offices with critical Spare parts used for regular and periodical maintenance. Each region is equipped with a small stores for the essential spare parts.

LEASING DIVISION:

Equipment's & Rentals, is the leading provider of rental equipment in India. We provide equipment that lifts & reaches. We rent these equipment, so that our customer can focus on what they do best rather than maintaining and servicing equipment. Our profit centers are located where they are most required and we guarantee our service.

TRADING DIVISION:

With 12 years of constant interaction with leading infrastructure leaders and consultants, we have understood the requirements by these clients and have offered to extend our services in the areas of steel processing machinery special purpose application of cement mortar spraying equipment with these equipments we ensure that clients progress and profitability shall be enhanced.

Management Team

Rambabu Cheruvu, Managing Director :

"We at CMAC believe in understanding customer requirements better and giving optimal solutions with best price and support".

As a visionary, Rambabu is positioning **CMAC** at the apex of Indian and global arena to show case our capabilities for the said range of equipment. As a Technocrat, he has been associated with Manufacturing and Infra industry for the past 27+ years in delivering high-end engineering solutions to the industry. A man with a passion and principles, he is successful in transforming CMAC into innovative, Quality and Value driven organization.

Badarinath Cheruvu, Director - Technical and Sales :

MS in Mechanical Engineering from Drexel University and a post graduate in Transactional Analysis. Badari has an expertise in understanding customer requirements as application engineering is his forte. With 25+ years of process experience and global exposure in material handling, he is leading the organization in terms of business development and technical support. With this varied experience he stands as a strong support to the sales and the service team in realizing their potential thus ensuring organizational growth.

Jyotsna Cheruvu, Director - Operations & Training :

An Engineering graduate and a Behavioral Science Trainer, Jyotsna is ensuring effective and efficient operations for the entire company. She manages the entire after sales team on pan India basis and ensures customer support all the time. Her strength lies in providing process interventions leading to Organizational development. She is successful in creating Learning and Development platform for the organization by imparting training to the entire team.

PASSENGER & MATERIAL HOIST

PM Hoist Single Cage

PM Hoist with 12mts Horizontal rebar carrier

PM Hoist Double Cage

Inclined Hoist

Curved Hoist for Cooling Towers

Technical Data:

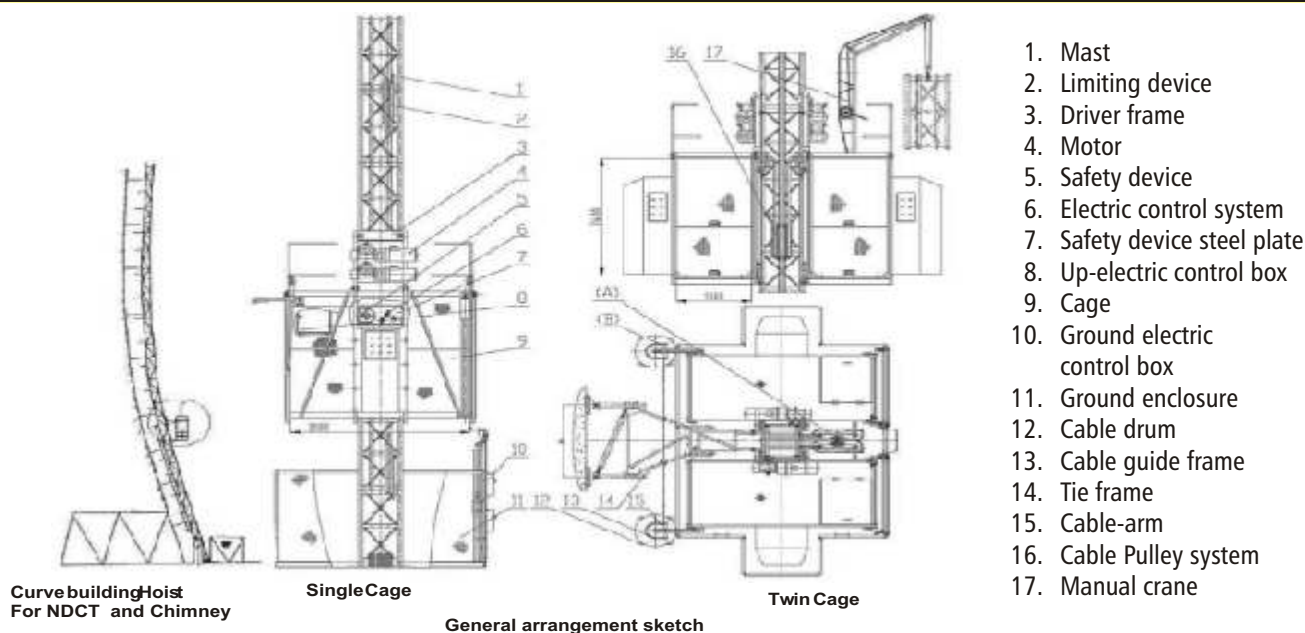

- Rated Load: 1 to 5 Ton
- Rated Passengers: 10 - 25 No.
- Fixed speed / Varied speed:
(30m/min; 0-63m/min, 0-90m/min)
- Max. Lifting Ht: 400m
- Cage Dimension: As per Customer requirement
- Mast Dimension: 450X450X1508 & 650X650X1508 mm
- Apart from above mentioned specifications, we can supply as per customer requirements.
- Single-cage / Double-cage
- Carries Man power & Material Vertically
- Can be used from stage of 2nd slab to completion of the Project
- Complementing Tower Crane in terms of vertical material handling.
- Power Consumption from 22KW up to 66 KW for regular hoists.

SUSPENDED ROPE PLATFORM

SRP is a twin hoist motor driven compact platform for use in restricted space areas.

- This temporarily installed suspended access equipments is multi-purpose and highly efficient construction machinery applicable **to work at heights upto 200+mtrs.** Platform width 1 mtr upto 10 mtrs. length
- It is also ideal for applications on: Elevator Shaft, big size tanks, high chimneys, vertical duct shaft bridges and large dams, external plastering, painting and elevation works.

Suspended Rope Platform

Technical Data

Model	CMAC 800	CMAC 250

Weight of Lifting Platform	Steel Platform (Kg)	600
		200

Elevator Dead Wall - Rectangular SRP

Circular Platform for Chimney/Vertical Duct Shaft

Double Decker Platform for Elevator Shaft

Single Tower Self Climbing Platform

Technical Data

Rated Capacity	1 Ton at Platform Length of 10 Mtrs.
Work Platform	10m x 1.3m (L x W) (Width extendable by 1.0 mtrs. with retractable tubes)
Work Platform Section	1.5m x 1.3 m (L x W)
Lifting Speed	6 m/min
Motor Power	2 x 2.2Kw, motor and Gear box
Mast Section	SQUARE TYPE 500mm x 500mm x 1508mm
Voltage	415[V] - 50 [Hz]
Safety Device Model	SAJ30 - 0.5
Start Current	25A
Work Current	10A
Weight of Mast Section	95 kg.
Platform Length Extendable	10M
Basic Platform Length	4M Extendable upto 10M
Max. Pay Load at Max. PlatformLength	1 Ton
First Anchor Position	6 to 9 M
Max. Lifting Height	300M
Tie - Distance	480 - 800 Tie distance from building Structure
Erection Crane	Self Erection with Motor

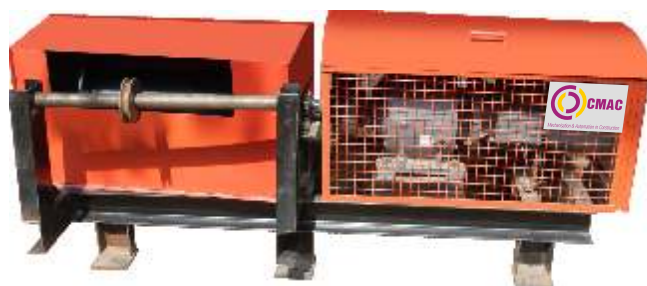

MULTI FUNCTIONAL HOIST (MFH)-CMAC RAMBO WITH REBAR

"U" TYPE SRP – DEC(RAMPALLY)

MULTI FUNCTIONAL HOIST (MFH)-CMAC RAMBO

TECHNICAL DATA

Geared Motor with Brake and Winch Mechanism

Multi Function Hoist	Rambo 1 Ton
Gross Weight Capacity	1000 Kgs
Pay Load Capacity	750 Kgs
Motor	
Make	LHP
Capacity	10 HP
Trolley Speed	30 Mtrs/min
Voltage	415 v ac
Frequency	50 hz
Protection	IP 55
Duty	S 1
Gear Box	Helical Type
O/P rpm	63
Brake	
Make	Emco Lenze dc
Brake Coil Voltage	190v dc
Bucket Size(L*W*H)	1450mm x 900mm x 2100mm 10 mm Ø, 6/36
Wire Rope	Construction
Wire Rope in drum	For 15Mtrs height-60Mtrs & for 25Mtrs height-90Mtrs
Mast Dimensions	(1500Hmm)
Mast Angle	L50 x 50 x 5mm Front & Rear
Safety Control	Up & Down limit switches
Top Mast with Pulley	1 No.
Bottom Mast with Pulley	1 No.
Trolley Speed	30 mtrs / min.
Channel Platform	Fabricated
Winch Dimensions	2300mm x 870mm x 750mm.
Control panel	
IP rating	Ip 55
Contactors	Schneider or equivalent
MCB	40 A 4 pole
Overload relay	12-18 amps
Optional Features	1. Rebar attachment (Vertical/Horizontal) special trolleys to carry various materials.(Plywood/Doors/Windows) etc.
	2. VFD & For Floor calling PLC

A- FRAME - CMAC make STANDARD DUTY

Pay Load Capacity	450 kg
Motor Power	2 HP
Lifting height	65 mtr.
Lifting speed	12m/min
Wire Rope dia	6 mm
Structure details:	
Total height of frame	2350mm
base length of structure	3700mm
over hanging length	1500 mm (from base structure)
bucket width passing in to structure	1150 mm
Lifting height (in between base and motor)	1800mm
Steel frame Counter weights each one 25 kg	500 kg total weight
Wheel barrow	01No.

TROLLEYS

- Collapsible Trolleys
- Office Trolleys
- Tool Trolleys
- Pallet Trolleys
- Trolleys for heavy duty items
- Warehouse Trolleys
- Platform Trolleys
- Hand Trolleys
- Wheel Trolleys
- Aluminium Trolleys
- Stainless Steel Trolleys

Each Trolley has different features and specification is used for various purposes

Leasing Division : We are the leading provider of rental equipment in India. We provide equipment that lifts & reaches. We rent these equipment, so that our customers can focus on what they do best rather than maintaining and servicing equipment, which they may use for a specific project. We make sure the equipment is there when it needs to be and is ready to work immediately and efficiently. Our profit centers are located where they are most required and we guarantee our service. Whatever the customer needs are, our trained staff gets the job done in a cost effective manner.

Leasing Division was founded in 2009, which is a distinct part of CMAC, with a view to capitalize on the enormous opportunity presented by the infrastructure equipment rental services industry in India. The Company focuses on providing turnkey solutions to EPC companies and assists its business divisions into 3 distinct segments:

- a) Pooling of equipment for rentals of the above range.
- b) Procuring assets to service specific large infrastructure projects.
- c) Buying of used equipment as is condition to refurbish & put it to use.
- d) Guiding the client to identify the specific equipment which may help them complete their project faster.

Equipment profile & the specifics

Passenger & Material Hoist	20
Suspended Rope Platforms	20

IN HOUSE FACILITY

Spares - Inventory

PRE DELIVERY INSPECTION

Quality team shall carry out thorough inspection of the equipment in accordance with design standards, by using our TEST BED facilities. It is necessary to carry design load to prove the operation of the equipment and related safety features before delivering the equipment to our customer.

CSR ACTIVITY

We are creating employment for school drop outs by providing hands on training on our equipments. This initiative is free of cost under CSR and we rolled out about 350+ operation technicians and they got employed at various construction companies across India.

DESIGN FACILITY : 2 Seats of AUTOCAD & 1 Seat of NX with 25+ years Experience & Dedicated Designers.

APPRECIATION LETTERS

15.06.2016.

To Whom-So-Ever It May Concern

This is to certify that the Passenger & Material Hoist was supplied by M/s. ConMechAuto Consultants India Pvt. Ltd., Hyderabad.

The Passenger & Material Hoist has been installed at our Site: M/s. Aryabhata Solutions Ltd., Plot No. : 19, Software Layouts Unit, Madhapur, Hyderabad.

CMAC has always been shipped in a timely manner. The machine was commissioned with trained operators and technicians on maintenance and operational procedures.

The machine is used extensively and we are pleased with the performance. We are extremely happy with M/s. ConMech Auto Consultants India Pvt. Ltd., and their service back up.

The entire CMAC team is very co-operative in providing solutions and technical assistance in a timely manner. We sincerely wish them

To Whom So Ever it May Concern

This is to certify that CNBM and CMAC, Hyderabad has supplied 9 nos. of Curved Passenger Hoists vide our purchase order nos. GMP/2122 Dt.06.02.2009, GMP/2489 Dt.15.01.2010 and GMP/2894 Dt.04.10.2011.

These Curved Passenger Hoists (as listed below) are being used in our various Natural Draft Cooling Towers construction.

Sr. No.	Project	Qty.
1	Malwa NDCT 1 & 2	2 Nos.
2	Korba NDCT	1 No.
3	Bhusawal NDCT 2	1 No.
4	Ulai NDCT	1 No.
5	Unosugen NDCT	1 No.
6	Tuticorin NDCT 2	1 No.
7	Krishnapatnam NDCT 1	1 No.
8	Raigarh NDCT 1	1 No.

We are very much satisfied with the performance of these Curved Passenger Hoists and after sales support of CMAC & CNBM.

This certificate is issued without prejudice.
